

The QS3 ... A New Level of Comfort

We are excited to present the QS3, a game-changer in IT equipment transport. Standing tall at 1000 mm, the QS3 combines innovation, versatility, and security in a single package. This cabinet is engineered for the unique demands of mixed IT equipment, including desktop computers, associated cabling, keyboards, power adapters, and accompanying monitors.

QS3

At NCAADE, we understand that every IT setup is unique. The QS3 is fully customizable, allowing you to configure it to your specific requirements. Whether you're moving desktops between office locations or setting up for an event, the QS3 adapts to your needs effortlessly.

The QS3 is more than just a cabinet; it's a solution that streamlines your IT logistics. It offers convenience, accessibility, and security like never before, ensuring that your IT equipment arrives in optimal condition, ready to perform.

Security and Peace of Mind

Protection is paramount when transporting valuable IT assets. The QS3 comes equipped with a robust locking mechanism (padlock included) to safeguard your equipment during transit. With QS3, you can trust that your technology investments are protected on every step of the way. Due to the environment and the generally fragile nature of locking mechanisms, we have chosen to maintain the use of padlocks for easier replacement of the locks when necessary.

Unparalleled Accessibility

The **QS3** features a dual-access design that sets it apart. With one front door that can be fully removed and another that opens upward, access to your IT gear has never been easier!

No more struggling to reach the back of the cabinet or dealing with cramped spaces .. The QS3's thoughtful design ensures effortless accessibility. One of the standout features of the QS3 is the generous space between the floor and the first shelf. This extra clearance allows you to store desktop computers and their peripherals with ease. Say goodbye to tight quarters and tangled cables; the QS3 is designed for organized efficiency.

QS3 (outer dim. H x W x D 125x80x60cm)
